**Subject:** Update on Televised RRP cases

Shari,

I am writing to provide a brief update on the progress of the televised RRP cases.

In our investigation of Magnolia Homes (associated with Fixer Upper on HGTV), the team met with Magnolia's general manager and general counsel in December 2015 and followed up the meeting with a request for pertinent company information and compliance records. Magnolia agreed to provide responsive records by February 15, 2016.

In our investigation of Nicole Curtis and her company Detroit Renovations, LLC (associated with Rehab Addict on HGTV), We were unable to make contact, despite repeated efforts. The team recently established communication with Curtis through her publicist. Through this channel, the team is arranging a mid-February meeting with a representative of Detroit Renovations.
